# Master the Art of Cool

## 1095 Refrigerator

### TECHNICAL SPECIFICATIONS

The WERD 95L 12V Refrigerator is a compact cooling solution designed for daily use, featuring low energy consumption and ultra-silent operation. With dedicated refrigerator and freezer compartments, along with a reversible door hinge, it offers versatile functionality for mobile spaces.

#### Electrical Specifications (DC 12/24V Operating Values)

|                    |            |
|--------------------|------------|
| Voltage:           | 12/24 V DC |
| Power Consumption: | 64W        |
| Current:           | ±5 A       |
| Noise Level:       | 8 dB       |
| Refrigerant Type:  | R600a      |

(Electrical values represent 1-hour average consumption rates)

#### WERD 95L Refrigerator

|                            |                    |
|----------------------------|--------------------|
| Capacity:                  | 95 Liters          |
| Dimensions (W × D × H):    | 470 × 450 × 840 mm |
| Weight:                    | 21,5 kg            |
| Freezer Capacity:          | 10 Liters          |
| Cooling Temperature Range: | 0 °C ~ +10 °C      |
| Freezer Temperature Range: | -6 °C ~ -15 °C     |
| Climate Class:             | N / ST             |

#### What is Climate Class (N / ST)?

The N/ST climate class indicates that the product operates stably under Normal (N) and Subtropical (ST) ambient conditions, maintaining high efficiency across diverse temperature ranges.

# Engineered for Excellence

Dual System, Marine  
e-boiler **15L**

## ⚙️ TECHNICAL SPECIFICATIONS

### WERD Marine e-boiler 15L

|                   |             |
|-------------------|-------------|
| Capacity:         | 15 Liters   |
| Dimensions:       | 27x27x47 cm |
| Max. Temperature: | 75°C        |
| Weight:           | 7.3 Kg      |

### Water Pressure Specifications

|                          |         |
|--------------------------|---------|
| Min. Operating Pressure: | 2 bar   |
| Max. Operating Pressure: | 7,5 bar |

### Electrical Specifications

(DC 12V Operating Values)

|          |         |
|----------|---------|
| Voltage: | 12 V DC |
| Power:   | 300W    |
| Current: | 24 A    |

### AC 220V Operating Values

|          |          |
|----------|----------|
| Voltage: | 220 V AC |
| Power:   | 2200W    |
| Current: | 10A      |

(Hourly Consumption Values)

e-boiler **10L**

# MAXIMUM HEAT IN MINIMUM SPACE.

## TECHNICAL SPECIFICATIONS

### WERD e-boiler 10L

|                      |                            |
|----------------------|----------------------------|
| Capacity:            | <b>10 Liters</b>           |
| Dimensions:          | <b>41 x Ø31 cm</b>         |
| Max. Temperature:    | <b>75°C</b>                |
| Weight:              | <b>7.1 kg</b>              |
| Water Tank Material: | <b>304 Stainless Steel</b> |
| Outer Material:      | <b>Metal</b>               |

### Electrical Specifications

(DC 12/24V Operating Values)

|          |                         |
|----------|-------------------------|
| Voltage: | <b>12V / 50Hz, 60Hz</b> |
| Power:   | <b>200W</b>             |
| Current: | <b>±16.6 A</b>          |

(Electrical values represent 1-hour average consumption rates)

### Water Pressure Specifications

|                          |              |
|--------------------------|--------------|
| Max. Operating Pressure: | <b>7 bar</b> |
|--------------------------|--------------|
